

## INTERNAL & EXTERNAL VACANCY

### Inspector

BATH SITE

#### **The Role:**

Working as a member of the Final Inspection Department, the successful candidate will be responsible for final acceptance for 100% of finished parts and maintaining the high standards of product quality is critical.

#### **Your main duties for the role would be, but not limited to:**

- Dimensional check parts in a clean and bright modern factory environment
- Visual check for any damage and imperfections
- Working to customer & internal specifications

Other duties may include:

- Releasing parts to customers as a designated quality representative (only after a successful training and examination program)
- Part Marking, Packaging, Cleaning and General housekeeping.

#### **Requirements:**

- Must not be colour blind, maintain eyesight yearly tests, and use optical aids if required
- Have a keen an eye for detail and imperfections.
- Completing documentation and quality records
- Good PC knowledge including use of Microsoft Excel and Word (training available)
- Report any quality issues to the Chargehand or Chief Inspector
- An approach to work which seeks Continuous Improvement in all activities
- Willingness to complete training courses and examinations
- Manually dress parts if imperfections are assessed to be reworkable
- Must be able to clean and work in a very tidy manner and to keep very high standards in the working environment
- Self-motivated to work unsupervised with a pro-active attitude but also take direction and adhere to deadlines
- The ability to navigate around Sharepoint and D365 Systems will be advantageous
- Strong work ethic and ability to promote good teamwork
- Flexibility to meet the demands of the business

In order to meet the requirements of the role, applicants should have the ability to:

- Read component drawings
- Use a wide range of inspection and test equipment with appropriate training (including micrometers, verniers and gauges)
- Understand customer and internal specifications
- Work collectively and collaboratively with the Quality, Production and Management teams
- Work with a meticulous and methodical approach
- Handle and take care of the delicate precision engineered parts

#### **Further Information:**

- This is a full time, permanent position that will be subject to a review period
- 39 hours per week
- Those interested in this role should submit a CV and covering letter to Human Resources
- Any questions about the role should be directed through Rich Webley or Human Resources
- **Please clearly reference the role you are applying for.**
- **Where possible, please send your application electronically to [hr@crossmanufacturing.com](mailto:hr@crossmanufacturing.com)**

**Closing Date: 22<sup>nd</sup> March 2024**
